EDUCATION

SDM Institute of Technology, Ujire (DK)

Computer Science Bachelor of Engineering
CGPA: 8.6

2022 - 2026

BGS Gurukula Independent PU College

PCMB 12th / PUC
Percentage: 74.5%

2021 - 2022

Sri Adichunchanagiri Vidyavardhaka High School

Degree in 10th Standard
Percentage: 88%

2019 - 2020

EXPERIENCE

Dhee Coding Labs | Full Stack Developer Intern

BTM Layout, Bangalore | Feb 2026 - June 2026

Developed reusable React components and RESTful APIs using React.js, Node.js, and Express.js to build scalable, maintainable, and high-performance web applications.

SKILLS

Programming Languages: C, HTML5, CSS3, JavaScript
Libraries/Frameworks: React.js, Node.js, Express.js
Databases: MongoDB

PROJECTS / OPEN-SOURCE

Course Management System | [Link](#)

React.js | JavaScript | HTML5 | CSS3

- Developed and deployed a responsive Course Management System using React.js and JSON Server.
- Built reusable components with React Hooks and React Router DOM for efficient navigation and state management.
- Integrated REST APIs using Axios for course, user, and authentication data handling.
- Designed a responsive, user-friendly interface using HTML5, CSS3, and JavaScript, following a component-based architecture.

Cinema Booking System | [Link](#)

MongoDB | Express.js | React.js | Node.js

- Developed a full-stack Cinema Booking System using the MERN Stack.
- Implemented JWT authentication, role-based access control, and REST APIs for user, movie, theatre, show, and booking management.
- Built responsive interfaces for movie browsing, seat selection, ticket booking, and booking history.
- Deployed the application using Vercel (frontend), Render (backend), and MongoDB Atlas (database).

E-commerce Website | [Link](#)

MongoDB | Express.js | React.js | Node.js

- Developed and deployed a full-stack E-Commerce Web Application using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Implemented JWT authentication, bcrypt password hashing, and role-based authorization for secure user access.
- Built an Admin Dashboard with CRUD operations for efficient product management.
- Integrated REST APIs with Axios for seamless frontend-backend communication.
- Deployed the frontend on Vercel and the backend on Render, with MongoDB Atlas as the cloud database, enabling a fully accessible live application.
